

when installed as nurse-girl; in his man- hood she took care of his chambers; and now, in his old age, she is his housekeeper and general servant, at his present house in Cambridge.

From such long intercourse, they were as much alike as possible, spoke alike, thought alike, looked alike, respected one another, nay, loved one another, as much as either was capable of so tender a feeling, and called one another "Little Martha," and "Master Peter," as they had been accustomed to do for as long as they could recollect.

So much for his establishment. His house, though filled with furniture, as comfortable as money could make it—for Prince was no niggard where his own comfort was concerned—yet bore the stamp of solitude, and, with all its luxury, looked desolate, and, often, very often, did Prince find it so, for no friend rested on those well-stuffed chairs—no one came to see him, save an old client, who paid him a formal visit once or twice a year, more from habit and for a glass of fine old port, than for any other reason;—and to-morrow would be Christmas day. Yet, no one was coming to dine with Peter.

There was to be no pleasant assembling beneath the roof of that dull house. He had given Martha leave to have some friends but she had answered,

"Thank you; I'm like you, I am't got none."

So an excellent dinner Peter ordered for himself, and Martha was to dine after him, certainly did his best to make himself happy, but never succeeded, for to a discontented mind there is no happiness. He paid poor-rates, and gave to several charitable institutions; for then, he said, he had done his duty, and would not be worried with tales of distress.

"Well, I'm sure, what's this start for?" he said, looking at an opening letter.

"Want something, I dare say; wish to Fate they'd take all my money, and leave me alone; going fifty miles in a deep snow for what?—to be wished a 'merry Christmas!' Ugh! to see people laughing, and eating, and passing a merry Christmas—in a clergyman's house, too; mirth and parsons not synonymous, not synonymous; hate parsons," and, flinging his letter on the table, he paced up and down the room

(To be continued.)

Good Feeling.

We are happy to perceive throughout the State, the best possible feeling existing between the American and Republican Parties, and hope that nothing will occur to disturb the cordial understanding between them. The Democratic Party also seems to have its share of good feeling, and nothing stands in the way of general harmony among our various political elements, but the irritability of two or three Democratic Journals in the State. Like the tonic in the story, they have got up such a tail, in their rage they can't get back into their accustomed hole; but we must hope for the best and have patience; the swelling cannot last forever, and we may expect a subsidence when the offices are finally dispensed. Then, for rosy dreams of peace, when the fretted discord of this Presidential election shall have passed away.

R.

If the winds blow,
And the snows snow,
And the frost snap o'ite,
Love is alive on a winter night!

When the stars glisten,
Listen! Oh, listen!
If the world be white,
Ho! there is fun on a winter night!

Let the wind blow then,
Let the snows snow then,
And the world wax white,
All is right on a winter night!

We notice a beautifully modelled iron schooner lying in our harbor, off the blue rocks. To those who have never seen an iron vessel, she will prove quite a curiosity. By the way, we notice that our Yankee ship-builders have recently turned out a magnificent iron war steamer for the Viceroy of Egypt, the first of her class and kind built in this country. She is said to be one of the finest ships afloat, and will carry the fame of her "infidel" construction to the far-off land of the crescent and the star. We are entering the lists as a competitor of England in this branch of industrial enterprise. She has heretofore built war steamers for several other nations, France not excepted; but she must now have a care to her hard-won laurels, or Young America will wrest them from her.

R.

A DRESS REFORM CONVENTION.—A convention which has for its object a reform in female dress, was commenced at Canastota, N. Y., on Wednesday last. Mrs. Ball of Canastota was appointed President. Letters were read addressed to the Convention from Mrs. Charlotte A. Joy of Millford, Mass., Elizabeth Cady Stanton, Seneca Falls, and a communication signed by forty-seven ladies of Hopedale, Mass., all ex- pressive of their co-operation. The Convention was in session on Thursday.

DR. KANE'S HEALTH.—The Havana correspondent of *The Courier and Enquirer* states that Dr. Kane's health is improving.

DESERET.—We have received files of *The Salt Lake News* to November 5, one month later than previous advices. The weather was cold, and much stock had perished of cold and hunger. Governor Young, accompanied by a number of the brethren started to visit the Shoshone Indians, but was compelled, on account of sickness, to return.

PHILADELPHIA, TUESDAY, JAN. 13, 1857.

The lumber yards of Messrs. Herbert, Davis & Co., and Correll & Durbin, on the Schuylkill Canal, were destroyed by fire this morning. The loss is about \$60,000. The fire in both cases was the work of an incendiary.

ST. LOUIS, Tuesday, Jan. 13, 1857.

The Missouri Legislature, in Joint Convention, yesterday elected James S. Green United States Senator on the first ballot. The vote stood: Green, 89; Benton, 34; Kennett, 32. This election is for the short term, but for the full term not having yet taken place.

HARRISBURG, Tuesday, Jan. 13, 1857.

A joint Convention of the Pennsylvania Legislature met at noon to-day for the purpose of electing a United States Senator. General Simon Cameron was chosen on the first ballot, the vote being—

Cameron—67 Forney—58 Foster—7

Mr. Watkins also received one vote, that of Mr. Foster. Three Democrats voted for Cameron.

A religious journal sums up the statistics of Evangelical religion in our country as follows:—Over 30,000 working Ministers of the Gospel sustained by 3,000,000 communicants, and heard by 16,000,000 of church-going people. Church property, \$700,000; religious contributions, \$24,000,000 annually.

CONGRESS.

SENATE.

The day was spent in very indifferent discussion upon the House bill providing for the settlement of claims of officers of the revolutionary army.

HOUSE OF REPRESENTATIVES.

Mr. Pelton presented a memorial from two hundred ship owners, merchants and pilots of New York, recommending the passage of Rogers' Marine Signal bill.

The House passed the Senate bill, with amendments relative to foreign coin. It provides that quarter, eighth, and sixteenth dollar pieces shall be received by the federal officers at twenty, ten, and five cents, but not again paid out. The new coin is to consist of eighty-eight parts copper and twelve nickel, and the coinage of half cent pieces to cease.

Mr. Chapman introduced a bill for the construction of a wagon road from the south pass in the Rocky Mountains in Nebraska Territory via Great Salt Lake Valley to Turkey Valley on the eastern portion of the State of California, and for the establishment of military posts thereon, and making further appropriation for the completion of the territorial road now in process of construction from the opposite Council Bluffs, Iowa, to New Fort Kearney.

The House then went into committee on the tariff bill.

GENERAL ASSEMBLY.

JANUARY SESSION, AT PROVIDENCE.

SENATE.—Mr. Peckham presented the application of George Turner, Collector of Customs, for cession of jurisdiction to the United States over certain land on Block Island, selected as a site for a light-house. Referred to the Committee on the Judiciary.

A report having been made favorable to the remission of the fine and to the liberation of T. Ordley convicted of violating the liquor law, that report was adopted and by resolution the fine was remitted and the convict liberated.

Mr. Peckham called up the petition for an act to incorporate the Woonasquatucket Railroad Company, laid on the table yesterday. The petition was granted and the act passed, for reported by the Committee on Corporations, passed.

Mr. Turner, for the Committee on Corporations, reported favorably upon the petition of the Thayer street Baptist Society, for amendment of charter changing its corporate name to that of Waterman Street Baptist Society. Granted and act passed in concurrence.

The report of the Committee on Kelley's Bridge was received from the House and accepted.

A resolution relative to the joint committee on the revision of the laws, received from the House, was passed in concurrence.

The petition of Horatio N. Cook and wife, for leave to adopt Matilda Hopkins, received from the House, was referred to the Committee on the Judiciary.

The report of the committee appointed one year ago to inquire into the matter of seine fishing in Narragansett Bay, received from the House, was read, accepted, and placed on file.

Miss McJillie of South Carolina, Nig Van Buren's bride elect, has sold her rig- gers at an average price of \$710, preparing herself for companionship with a "Free Soiler."

Dr. PARR.—The doctor was very fond of his choir, and always encouraged them to sing a long hymn or anthem before the sermon, during which he used to steal into the vestry and smoke his pipe. When they had done, the clerk informed him; and if the doctor had not finished, he would say, "John, tell them to sing the last two verses over again—my people love singing, and I love smoking."

Arrivals at the Hotels.

U. S. HOTEL (COPELAND)
Albert C. Gardiner, Prof. Thomas Townsend of Sch. E. S. Jones.

From India.

Extract of a letter received from Rev. B. C. Thomas.

TAVOY, November 18th, 1855.—Messrs. P. DAVIS & SONS.—Dear Sirs.—The Karens here have no more confidence in their ancestors. They desire rational remedies for the sick. By various means, principally through the agency of the Rev. D. L. Brayton, these Karens have become acquainted with your medicine, and their demand for it is to me very surprising.

I have now by me orders for more than fifty bottles; but I have not got one bottle. I therefore wish you to send me one hundred bottles could dispose of at least one hundred bottles this year. Send it, and I will pay you through the Treasurer of the Missionary Union. I hope we shall be favored with some of it as soon as possible. There is no medicine which stands so high in the estimation of the Karens of these provinces as the Pain Killer, and I feel willing to gratify them, as I entertain a very high opinion of its worth. B. C. THOMAS.

CALCUTTA, November 4th.—Dear Sirs.—Confirming my respects of the 4th ult., I duplicate herewith, and I find it necessary to address you again, as my most sanguine expectations have been more than realized. The call for your valuable medicine is increasing so very rapidly that I fear I shall soon be unable to keep pace with it, as I have only about one hundred bottles of the supply per Union on hand, and trust that ere this you will have dispatched my order of June last. My particular object in writing now is to beg that on receipt of this, and by direct dispatch opportunity offering immediately after, you will kindly despatch another batch as ordered in my letter of June last. I hope, however, I will not be entirely out before your last despatch reaches me, of which, however, I have not yet heard from you. I remain, dear Sir, yours sincerely, J. L. CARRAU. Sold by all dealers in medicine.

A CARD TO THE LADIES.

Dr. Williams' Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins to decline, and the want of such a remedy has been the cause of so many complaints among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 127 Chambers St. They will supply the trade at manufacturers' prices. Ladies, by enclosing \$1.00 to STURGES & CO., Box 24, New York Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country.

SPECIAL NOTICE.

ANOTHER TRIUMPH OF THE
Defiance Salamander Safes!!!
New York, Nov. 4th, 1856.

MR. ROBT. M. PATRICK, 192 Pearl St.,
DEAR SIR:—The Defiance Safe, No. 3,778, purchased from you about eighteen months since, was in my house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of 5th June last. The Safe, after being exposed to an intense heat for many hours, was recovered on the 11th of June. Not having the necessary tools at hand to open it, the same was sent just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was greatly surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully,
SAMES OF ALL STATES, Plate Glass for Private Families, &c., always on hand, for sale and to order, at the Depot, 192 PEARL STREET, one door below Maiden Lane, and at the Manufactory, Nos. 61, 62, 63 and 64 Cannon street, New York.

44 6m ROBERT M. PATRICK

MARINE INTELLIGENCE.

DINASTERS.

Sch. *Almira*, of Providence, which was spoken 20th ult., on the passage from Rappahannock for New York, with loss of deck-lad, sails split and short of provisions, has at Delaware Breakwater. The crew had suffered much from the severe weather. She remained at that place 5th inst.

ST. JULIEN ROAD & CO.'S

Nos. 100 & 102 Broad-St.
Providence, R.
WHERE you will find in abundance,
by wholesale and retail, Crockery, Glass,
China and Cutlery, Hot Air Furnaces, Cook-
ing Ranges, Stoves, Pipe, and Zinc; Tin, Ja-
paned, Wooden, Willow, Britannia, Enamel-
ed, Earthen and Plated Ware and House
Furnishing Goods Generally, which they will
sell
AWFUL. CHEAP.
They are Agents for the sale of West Cast-
leton Marble Mantels and McGregor's Ventilat-
ing Parlor, Office and Hall Stoves, which have
been in use for Ten Years, and with the recent
improvements for Economy, Purity of Air,
and Ease in Management, have no equal.
They can be ventilated to any degree or
they can be required, and, unlike other anthracite
coal burners, baffle the apartments quite at-
tenuating a wood fire or open Franklin
producing a current of air at once moist, pure

and agreeable, and as NONE OF THE AIR WHICH COMES IN CONTACT WITH THE FIRE POT is used for RESPIRATION, the tendency to produce the headache, so much com-
plained of by those using Stoves and Fur-
naces, is entirely obviated. The coal is
consumed, and no clinkers made, consequently
sifting coal is dispensed with. When this
furnace is properly managed the fire may be
continued throughout the season without going
out. Those having the stoves can speak well
of the Economy as they are the same as

Added to all these qualifications, the purchaser may reasonably expect to save 30 per cent. in fuel and expense. Sold by
G. N. HUBBARD & CO.,

COAL UNDER COVER—The subscriber having provided himself (for the benefit of his customers), with spacious sheds, takes pleasure in informing them and the public that he will be prepared to deliver, free of cost, all the best quality of the well known

of coal with which his yard is always supplied. Consumers will find a saving of 50 per ton in purchasing dry and clean coal.

A NURSERY THREATENED—A letter from Vincennes, Ind., of the 3d inst., says: "There is great excitement in the city, occasioned by a Mrs. Crawford, of Cleveland, Ohio, claiming her three children, placed in the Catholic Orphan Asylum here by her husband. The woman visited the Asylum and requested leave to take away her children. This she refused, when she eluded one of the children and fled with it in her arms. She was found by the nuns and others, and a scuffle ensued in the streets, the mother fighting desperately for her child. Some of the citizens interfered in behalf of the mother, and she took the child away. The matter is now in Court on a writ of habeas corpus. The excitement runs high; the sympathies of the populace seem to be with the mother and should the court give the children to the nuns, serious disturbances seem inevitable."

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
Colds, Coughs, and
Hoarseness.

DR. J. C. AYER, 20th Decr., 1855.
The best remedy I have ever found for Coughs, Croup, Whooping Cough, and all the pulmonary affections of a cold, is your Cherry Pectoral. I have used it in my practice and my family for the last ten years, and it has cured more than twenty-five cases of Whooping Cough, and all the pulmonary affections of a cold. I have used it in my practice and my family for the last ten years, and it has cured more than twenty-five cases of Whooping Cough, and all the pulmonary affections of a cold. I have used it in my practice and my family for the last ten years, and it has cured more than twenty-five cases of Whooping Cough, and all the pulmonary affections of a cold.

Croup, Whooping Cough, Influenza.

I have used it in my practice and my family for the last ten years, and it has cured more than twenty-five cases of Whooping Cough, and all the pulmonary affections of a cold. I have used it in my practice and my family for the last ten years, and it has cured more than twenty-five cases of Whooping Cough, and all the pulmonary affections of a cold.

Ayer's Cathartic Pills.
THE sciences of Chemistry and Medicine have taken their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these pills have virtues which surpass in excellence the ordinary medicines, and that they are unobtainable on the ocean of all men. They are pleasant and pleasant to take, and powerful to cure. Their purgative properties, in the most delicate manner, remove the obstructions of the organs, purify the blood, and expel disease. They purgative the blood, and expel disease. They purgative the blood, and expel disease. They purgative the blood, and expel disease.

FOR SALE—25 splendid Building Lots, having a fine sea and harbor view. Also four beautiful Villas, situated in the most fashionable part of the city. For further information apply to GEO. H. WILSON, Esq., Builder, 221 Corner of Redwood and Cottage Sts.

GREAT AMERICAN AND FOREIGN OFFICE.
FOR SECURING PATENTS FOR INVENTIONS.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE.
R. H. EDDY, No. 76 STATE, OPPOSITE KELLY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837), is prepared to protect and advantage in applying for patents, superior to those offered elsewhere by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove to the satisfaction of all who are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Copies of claims of all patents, furnished by him, on demand, are sent to his office in Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring patents. There were few, if any persons acting in this capacity, who did so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDWARD BURKE, Late Commissioner of Patents. August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the practice of the Office. I regard him as one of the most capable and successful persons, in connection with whom I have had official intercourse.

CHAS. J. MASON, Sec. 12 1855. Commissioners of Patent-62 Bowly. Jan. 1856.
MAGDALA BESSUR—by the author of "Tidee." For sale by C. E. HAMMETT, Jr., 116 COLE AND WOOD.—The subscriber would call the attention of the public to his assortment of prepared family Coal which is really superior to any thing he has ever yet seen, and which he will warrant to be as represented. Persons using the McGregor stove would do well to examine his pure Ashland white ash coal before making their purchases.

A large assortment of Wood constantly on hand. Also Kindling wood sawed and split by steam power in a superior manner, for use at the shortest notice.

OMAN & BRADFORD.

THE STOVE FOR THE PEOPLE—The subscriber has received the Banner Cooking Stove; those in want of a good Stove, will please call and examine a perfect stove, also for sale the Day State, May Flower, and other cooking stoves.

THE GREATEST WONDER OF THE AGE.
A REMEDY WHICH CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cagué Bitters. This truly wonderful scientific compound is recommended by all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the United States, the mortality of the cholera and cholera diseases has been diminished by over 75 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. LEROUX, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon taking, it creates appetite, and prevents the distresses attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any who wish to see them.

SPRATT'S LIGHTNING RODS—With branched and other points made of pure copper and gilded with the gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of cast iron, and sold last year by some dealers in lightning rods.

Also, fixtures for a new and valuable improvement in applying insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the electrical fluid from being conducted by iron screws and drives into the room.

The following recommendations have been furnished gratuitously: Louisville, Jan. 27, 1851.
The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of an ordinary magnitude, to which all buildings are exposed. T. H. LILLMAN, Jr., Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MANS, Prof. Phys. Sc. Emory College, Ga., and Prof. Chem. and Pharm.; Med. Coll. of Ga.

The Greatest Discovery of the Age.
PROFESSOR WOOD offers for sale a perfect HAIR RESTORATIVE. It is in a short time restore the Hair, which has become gray prematurely, to its original color—bring it out where it is gone, and arrest it when it is falling off—cleanse the head of dirt, dandruff, and itching humors, and thus perfectly healthy, by restoring the secretory organs to their original vigor and strength, and thus supply nutrient and coloring matter to the roots. It does not dye the hair, but is, in short, a perfect Hair Restorer and Tonic.

To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is so discreet and elegant, and stimulating to the hair, and keeps always upon the toilet a bottle of the Restorative for occasional use, and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piercing, and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence become first dead and harsh, then gray, or falls off before it be robbed of more than half its clamor, as it is a very elegant remedy for those who are gray, as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.
Boston, March 20, 1855.
Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make use of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours,
D. C. M. RICH.
Milford, Worcester Co., Mass. Nov. 13th, 1855.
Prof. O. J. Wood—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1833 my hair commenced falling out until the top of my scalp became bald, and smooth as glass, and it continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours truly,
HENRY GOODRICH.
Carlyle, Ill., June 27, 1856.
I have used Prof. O. J. Wood's Hair Restorative, and as I find it permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

SIDNEY BRISSE.
Ex-Senator, United States.
O. J. WOOD & CO., Proprietors, 312 Broadway, New York, and 114 Market Street, St. Louis, Mo.
